

Dear Members of the FCC:

I'm deeply troubled by the move to change the rules that would allow media consolidation. While the recent media attention has made this a public issue, there had been little opportunity for a fuller public discussion of the issue. I'm not persuaded either that rule changes are in the public interest and would allow for unpopular, fuller public discussion at the local level. Please extend the time for a vote (a time which is arbitrary and can be changed), and please allow for more public discussion and acknowledgement.

Bob and Marilyn Welker
